SUMMARY

I am a 3rd-year Software Engineering undergraduate at SLIIT (2023 – Present), having successfully completed the first two years of study and earned a diploma in Information Technology. I have hands-on experience in full-stack web and mobile application development, with proficiency in JavaScript, React.js, Node.js, MongoDB, Kotlin, and Android Studio. Skilled in using the MERN stack, Java, Tailwind CSS, SQL, and XML. I possess strong communication, analytical, and problem-solving abilities and am fluent in both Sinhala and English. I am currently seeking an internship opportunity to apply my technical skills and gain professional experience in the software engineering industry.

EDUCATION

BSc (Hons) in Information Technology Specializing in Software Engineering

Sri Lanka Institute of Information Technology

2023 - Present

CGPA: 3.18/4.00

GCE Advanced Level - Science Stream (Feb 2022)

GCE Ordinary Level (Dec 2018)

ST Thomas College Matara

TECHNICAL SKILLS

Programming Languages: JavaScript , HTML , CSS , SQL , Java , PHP , Kotlin , XML , Kotlin

Frameworks & Libraries: React.js , Tailwind CSS , Node.js , Express.js , Bootstrap

Tools & Platforms: GitHub , VS Code , Figma , MongoDB , MySQL , Android Studio , Eclipse , Tomcat

PROJECTS

Real Fitness Gym 🌐 GitHub

2025

- Developed a custom web application for a well-known gym in Matara based on their specific requirements, enabling efficient gym management including member registration, equipment tracking, supply maintenance, and supplier management.
- Technologies: MERN Stack, Tailwind CSS, JavaScript

Boat Rental 🌐 GitHub

2025

- Developed a feature-rich mobile boat rental application, offering users the ability to browse and reserve boats with ease. Key features include a wishlist for favorite boats, a booking cart, real-time order/trip tracking, secure user authentication
- Technologies: Kotlin, XML, Android Studio

Personal Finance Tracker 🌐 GitHub

2025

- Designed and developed a personal finance management Android app with income/expense tracking, budgeting, and spending insights. Includes smart notifications, data persistence, and optional backup/restore functionality.
- Technologies: Kotlin, XML, Android Studio, SharedPreferences

Advertising Agency 🌐 GitHub

2024

- Developed a full-featured web platform for an Advertising Agency, including features such as client account management, a dynamic campaign portfolio, detailed service listings, a testimonial and review system, and secure session-based authentication to ensure data privacy and access control.
- Technologies: PHP, CSS, JavaScript
